## DETAILED ACTION

### *Amendment*

1. Acknowledgement is made of Amendment filed 15 October 2003.

### *Claim Rejections - 35 USC § 102*

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-13 are rejected under 35 U.S.C. 102(b) as being anticipated by Legault (US 5,064,222).

Re claims 1-4, 7-10: Legault teaches a method for processing sheet material in different successively processed groups (i.e., processing the pages of the booklet comprise repeating groups of sheets), comprising the following method steps:

separating the different groups of sheet material (see fig. 2), and

processing the separate groups of sheet material (see fig. 2),

wherein a separator-card (cover-sheet 3 in figs. 1-2) is used for separating the different groups of sheet material, and at least one information-carrier (bar code applicator 8 in figs. 1-2) is used for processing the different groups of sheet material, the separator card 3 and the at least one information carrier 8 being separate from one another (see figs. 1-2; col. 1, line 64 through col. 2, line 67).

Re claims 5-6, 11-13: Legault teaches a method, wherein the separator card (cover-sheet 3 in figs. 1-2) and the at least one information carrier (bar code applicator 8 in figs. 1-2) are

brought together with the groups of sheet material at different places (see figs. 1-2; col. 1, line 64 through col. 2, line 67).

### ***Response to Arguments***

4. Applicant's arguments filed 15 October 2003 have been fully considered but they are not persuasive.

5. In response to Applicants' argument that "Applicants are unable to find any reference in the description of Legault of a step of separating different groups of sheet material, and a description of a step of processing such different groups of sheet material." (see page 5, 3<sup>rd</sup> paragraph, lines 5-7), the Examiner respectfully requests Applicants further review Legault's teachings, wherein Legault discloses "Referring to FIG. 2, the pages of the booklet comprise repeating groups of sheets, each group consisting of the following: ..." (see col. 2, lines 1-3), which serves as the steps of separating the different groups of sheet material, and processing the separate groups of sheet material, as set forth in the claimed invention.

### ***Conclusion***

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event,

Art Unit: 2876

however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
